

# QuickSilver Sports for - Mini Cooper S

These exhaust systems are built by **QuickSilver Exhausts**, a company with over 30 years experience building only stainless steel exhaust systems, for the likes of Aston Martin, Lamborghini, Ferrari, McLaren etc. We offer a choice of systems to suit the Drivers use and personal requirement:

## 'Sports' System

**Weight: 8 kilos**

Finally, a fresh approach to an exhaust design for the MINI Cooper S. This single box system achieves what the others are doing with 2-3 box designs.

Key features.....

- \* Drastic weight reduction - from 18 kilos to 8 kilos
- \* Individual 'Sports' appearance, invisible rear silencer, trim fills the valance for a clean bumper line.
- \* Choice of large oval, twin oval or twin round tail-pipes
- \* Dyno tests show 8 bhp improvement
- \* System can be fitted on it's own or will complement other modifications.
- \* Easy install. Direct replacement for the original - about 1 hour.
- \* 100% aircraft grade type 304 austenitic stainless steel and all Tig-welded construction with a 25 year warranty.
- \* Suitable for cars that are enjoyed daily - high mileages - up to 180 bhp
- \* Pleasant increase in volume with an encouragingly distinctive 'Rasp' on acceleration - just right for regular urban use.

## 'SuperSports' System

**Weight: 7 kilos**

This is the system for those who are getting Serious. Single box, straight-through system. Maximum efficiency without maximum noise - the sound will impress your friends without offending your neighbours (driven sensibly) - making the most of the 'Mini Adventure'.

Key features.....

- \* Serious weight reduction - from 18 kilos to 7 kilos
- \* Individual 'Sports' appearance, invisible rear silencer, trim fills the valance for a clean bumper line.
- \* Choice of large oval, twin oval or twin round tail-pipes.
- \* Dyno tests show 14 bhp improvement

- \* System can be fitted on it's own or will complement other modifications.
- \* This system will also fit the Mini Cooper if you change the rear apron to the Cooper S part.
- \* Easy install. Direct replacement for the original - about 1 hour.
- \* 100% aircraft grade type 304 austenitic stainless steel and all Tig-welded construction with a 25 year warranty
- \* Suitable for cars that are more highly tuned or used in competition - we now have customers running well over 200 bhp.
