STAINLESS STEEL EXHAUSTS

## Mini Cooper S R56 'Sports' Exhaust

These exhaust systems are built by QuickSilver Exhausts, a company with over 30 years experience building only stainless steel exhaust systems, for the likes of Aston Martin, Lamborghini, Ferrari, McLaren etc. We offer a choice of systems to suit the Drivers use and personal requirement:

**'Sports' System**

Weight: 8 kilos

Finally, a fresh approach to an exhaust design for the MINI Cooper S.

Key features:

- ✓ Drastic weight reduction - from 18 kilos to 8 kilos
- ✓ Individual 'Sports' appearance, invisible rear silencer, trim fills the valance for a clean bumper line.
- ✓ Choice of twin upswept or twin round slash cut tail-pipes
- ✓ Dyno tests show up to 35 bhp improvement.
- ✓ System can be fitted on it's own or will complement other modifications.
- ✓ Easy install. Direct replacement for the original - about 1 hour.
- ✓ 100% aircraft grade type 304 austenitic stainless steel and all Tig-welded construction with a 25 year warranty.
- ✓ Suitable for cars that are enjoyed daily – used for high mileages or are modified.
- ✓ Pleasant increase in volume with an encouragingly distinctive 'Rasp' on acceleration - just right for regular urban use.
